

**Donor Impact Report**

**2025**

**A healthy community needs two things: the wisdom of elders and the vitality of new members. In 2025, the Body Electric School achieved both.**

We saw an amazing influx of new energy this year. Our digital presence is attracting **approximately 6,000 new visitors each month.** (Wow!) Through the generous support of our community, **we've helped 117 individuals** access our work by granting over **\$70,000 in scholarships.** (Incredible!)

We celebrated the 35th Anniversary of Dear Love of Comrades and offered the first Healing the Wounded Healer for Women+. The School presented 425 events with **2,518 attendees in 2025.** Many of whom are new to the School, but we are proud to welcome back alumni from 20 to 30 years ago. Additionally, we are reconnecting with our roots. We are thrilled to have welcomed back **Joseph Kramer, Collin Brown, and John Ballew** - all of whom led new workshops this year.

We produced dozens of free events, including our Thursday night [Heart Circle](#) ( now in its 6th year)and [Queer Heart Circle](#). Even after the loss of our beloved Steve Schwartzberg, we are continuing our [weekly meditation on Wednesdays](#)

with rotating leaders from a variety of traditions. We continue to offer [Why Body Electric](#) to help people start their journeys by introducing them to the School and answering questions.

**“Attending this event was like entering a portal into the most beautiful heart-space of diversity and acceptance, in which it was a joy to discover pathways through simple activities and ritual, for the dynamics of power and surrender to move, express and transform the impact of painful past experiences into creative life force. I left this workshop with a feeling that profound healing had occurred, an increased energy flow in my body and a connection to myself as a potent being.” – CBE Participant**

We updated the website to make it easier for those who are new to Body Electric to find their journey by creating learning tracks. We brought back massage training and added more depth to our Sacred Intimacy Training. We also expanded facilitation training by adding the first Advanced Facilitation training. We introduced new programming, including Queer PSI and Divine Embodiment which focuses on sacred sexuality. We launched our [On-Demand Section](#) of the website. We released our [2026 Catalog](#) early and put a lot of emphasis on getting venue bookings early to ensure better enrollment.

We also recommitted to the best experience by focusing on integration after the workshop with two free monthly events. [What Now](#), which helps you process and apply what you learned in your workshops, and the [Ambassadors' Program](#), which helps you talk about your experiences.

Our [Erotic Liberation Podcast](#) continues to grow, reaching nearly 20,000 downloads. The special [three-part interview](#) with Steve Schwartzberg is only one of many inspiring and informative episodes.

Your donations made all this possible.

Help us keep the current strong by [donating today](#)
